

Chris Ganly

Curriculum Vitae - PHP Developer

Personal Info

Address: Obscured temporarily.

E-mail: Obscured temporarily.

Website: fghj.me (<http://fghj.me/>)

Phone: Obscured temporarily.

Professional Objectives

My objective is to obtain a position with a progressive web development or software development company with a strong focus on creativity and problem solving. To support a network infrastructure based on multiple operating systems and complex network topologies. I want a position that is both challenging and rewarding, that will allow me to expand my knowledge and abilities in web development and problem solving.

Technical Skills

PHP

Most of my recent projects have been done in Yii. But I'm always happy to expand my horizon with new languages or frameworks.

- Yii and Codeigniter frameworks.
- Experience implementing online payment interfaces.
- Can use composer!

Databases + Deployment

- MySQL, PHPMyAdmin, Ingres, SQLite, PostGres.
- Full LAMP deployment experience.
- Experience using PDO.

HTML, CSS & Javascript

- Advanced HTML skills.
- Intermediate JQuery skills + vanilla JavaScript.
- Experience using Bootstrap and 960 CSS frameworks.

Other Languages

I also have some experience using Python, Bash & Java.

Work Experience

PHP Developer

September 2012 - Current

Delta-Link Australia, Part Time

Contracted to move a legacy application using OpenRoad (<http://en.wikipedia.org/wiki/OpenROAD>) managing school finances onto the web whilst preserving the existing Ingres database, and expanding functionality to include more types of end users unsupported by the legacy application such as parents and students.

The work I've done here will eventually be pushed out to a large number of schools across NSW - and already includes prominent schools such as The King's School and Tudor House.

Junior PHP Developer

November 2011 - September 2012

Cloud Group Australia, Full Time

Worked as a junior PHP developer that also assisted project management duties liaising between customers in Sydney, and outsourced Java and PHP developers in the Philippines.

Dog whisperer

March 2011 - November 2011

Dog Incorporated, Full Time

Managed a complex portfolio regarding interspecies communication. This position involved managing Dog, and giving it treats.

Quality Assurance Tester

November 2010 - March 2011

Optus Pty Ltd, Full Time

Professional Tester. Worked full time testing SOAP transactions in XML and JSON to maintain Quality Assurance across a large number of Optus internal and external processes.

Education

Charles Sturt University

Bachelor of Information Technology, Major Online Systems

Currently unfinished; deferred 2013. Will resume 2014 via Distance.
